*In the Black Manager™* provides a window into your store operations and allows on-site management of inventory, customers and staff through a customizable user interface.

Our electronic journal tracks detailed information on sales, system status, errors and exceptions. Drill down to transactions by terminal, sales staff, departments and tenders. Custom reporting allows you to analyze sales and items by date, fast movers, vendor performance and customers activity.

Track customer sales history; manage loyalty points, sign up new customers and record demographics. ITB Manager's™ CRM functionality provides fast, accurate details and relationship information. Integrated discount

promotions management ensures the correct execution of customer promotions.

*In the Black Manager™* provides an unsurpassed level of merchandise management capability, all with multi-level security and detailed audit reporting. Manage merchandise transfers, receipts and special orders. Produce inventory reports, conduct cycle counts and update adjustments. Add new items, control pricing and discounts.

Available as a stand alone system for independent retailers or as part of our enterprise solution, ITB Manager™ provides the tools to allow you to effectively manage your store and the POS system.
